

# Walk through 4 Order

## Problem Statement

There is a need for a walkway  
around the west side of  
the building. The walkway  
is 10 ft wide.

## Concept Statement

Contemporary twist on  
nature.

|----|------------|
| 1  | Drain      |
| 1  | Gas Line   |
| 1  | Water Line |
| 2  | Trees      |
| 18 | sprinklers |
| 22 | shrubs     |
| 4  | PLANTS     |
|    | Bark       |

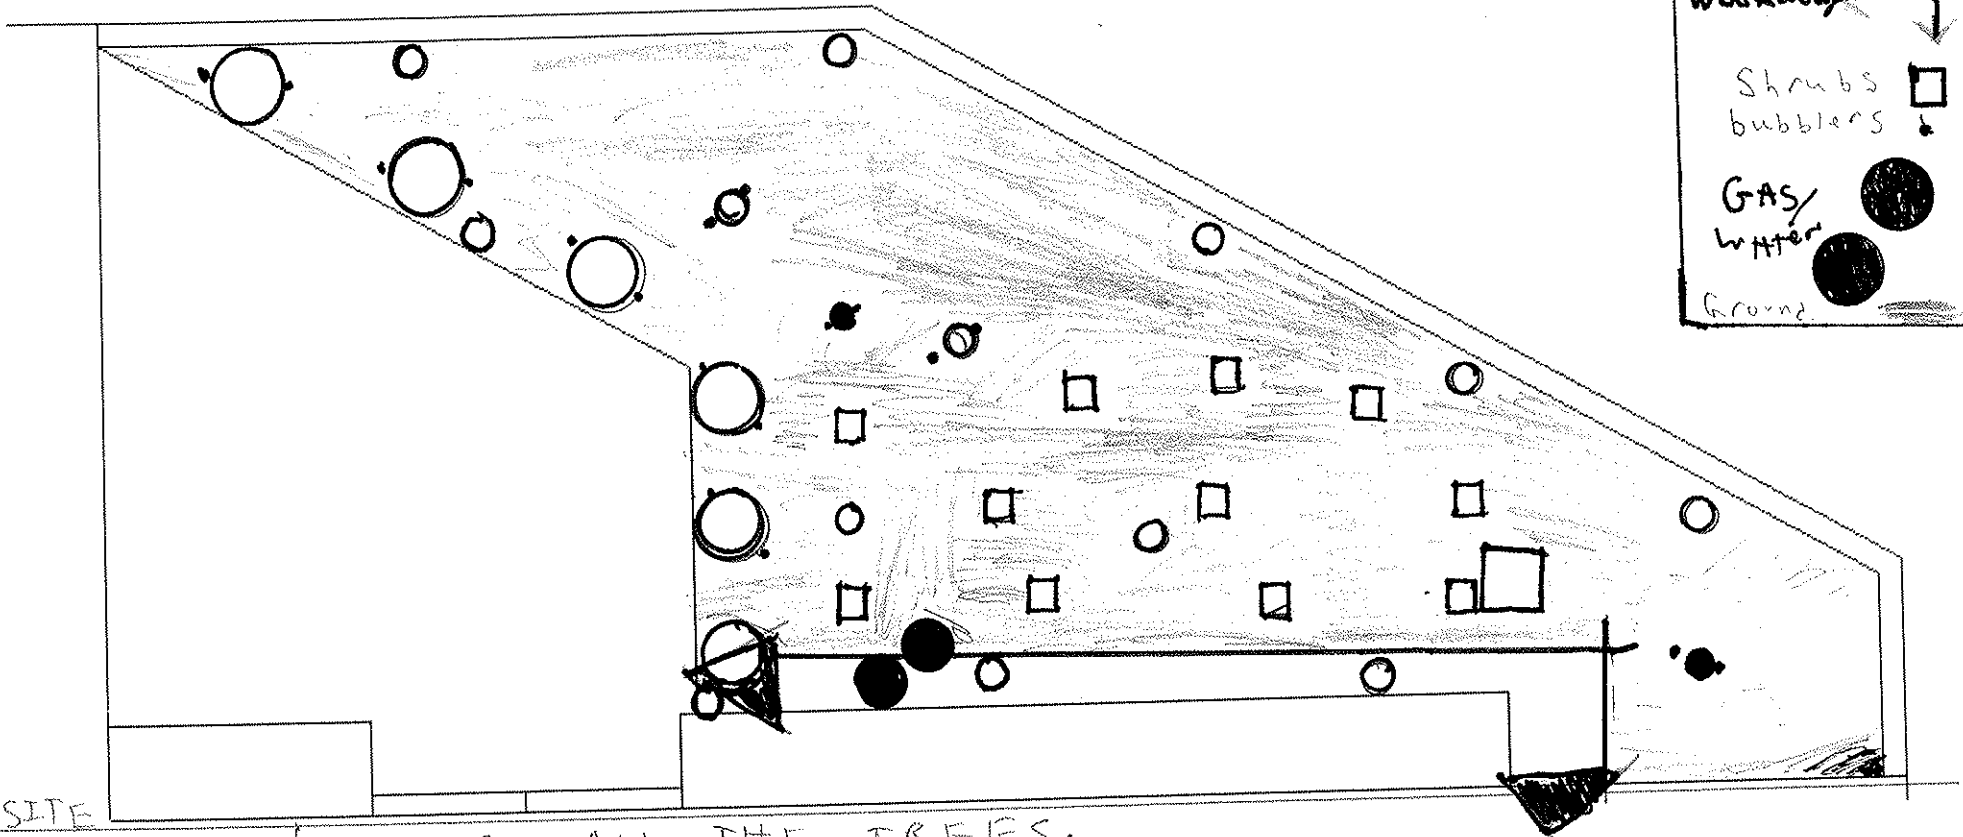

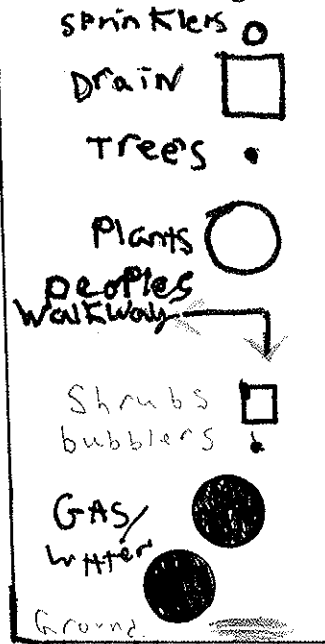

## NOTES

- People are walking through the site. so we need a walk way through the site.
- Shrubs and Bark needs to go
- trees stay
- Plants should stay for beauty.

## IDEAS

- Lunch area Lounge.
- Student hang out
- Gardens out Door Lounge
- Lunch area with Gardens

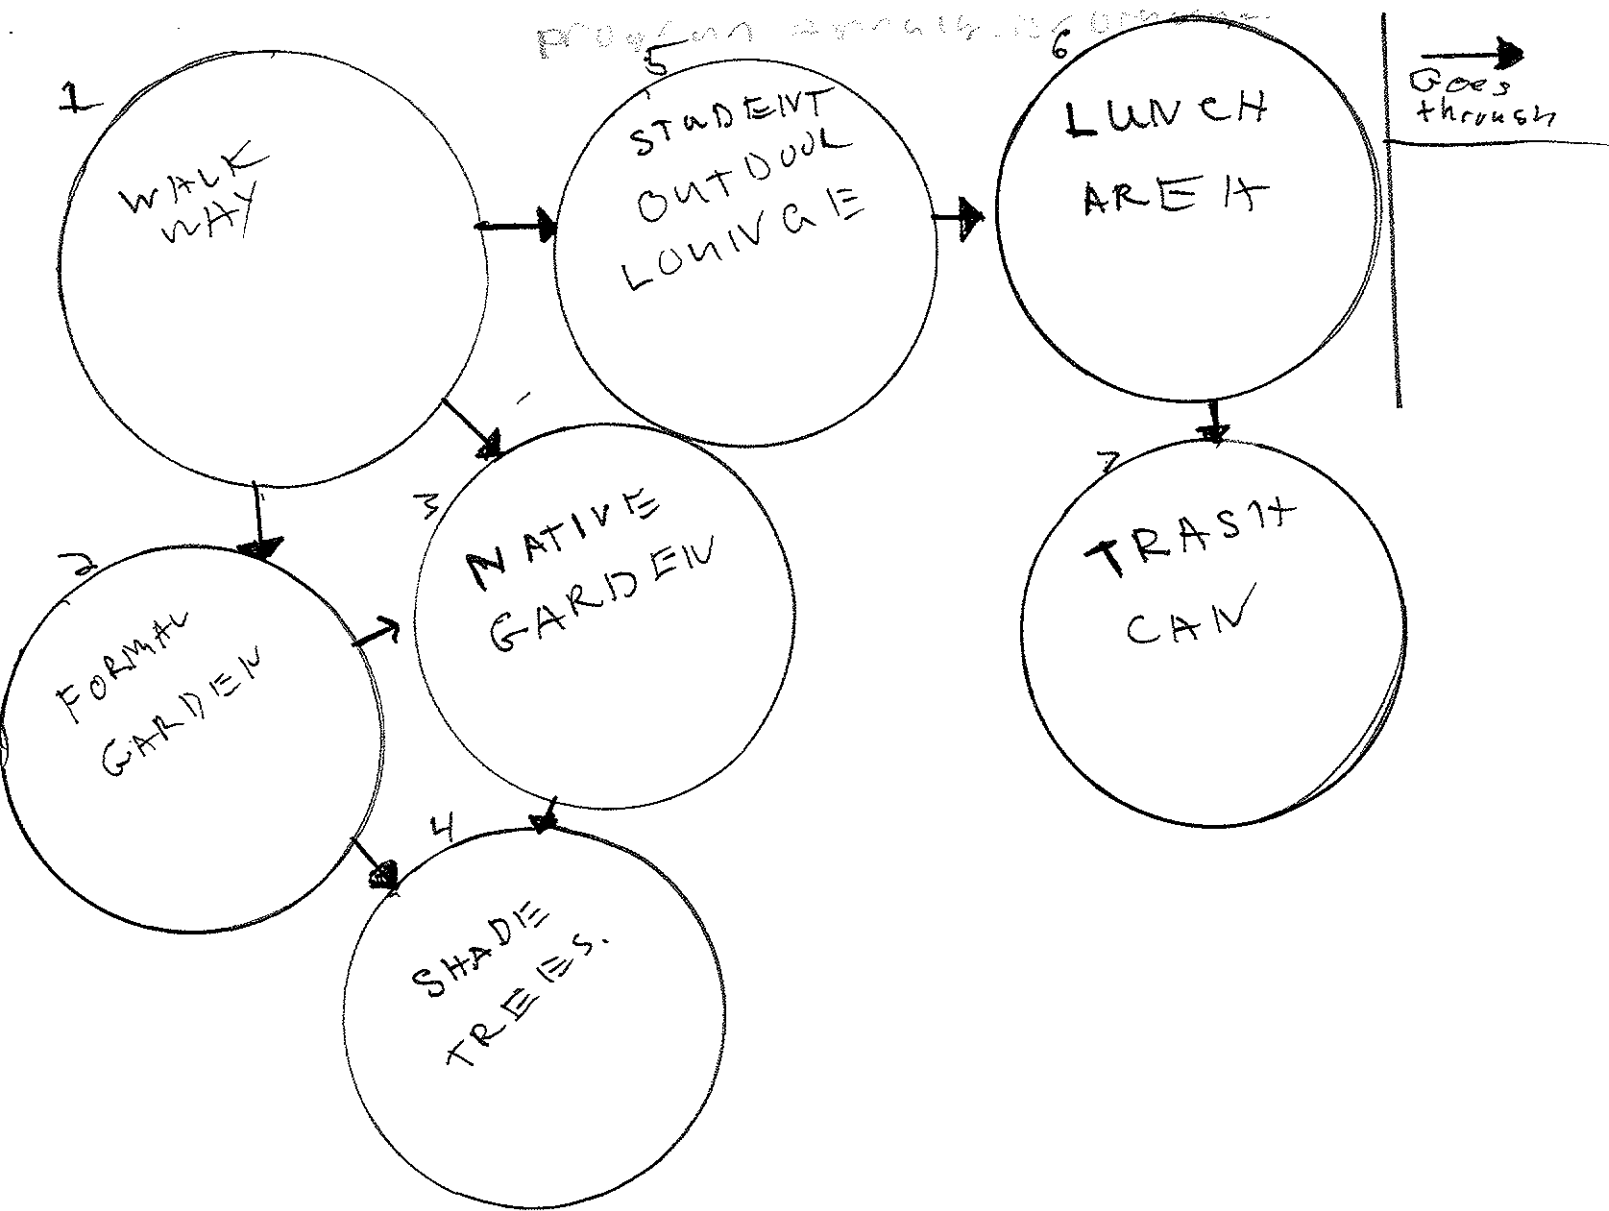

# FORMAL GARDEN / OUT DOOR LOUNGE. SITE ANALYSIS

## ON SITE

- 1 DRAIN
- 1 GAS LINE
- 1 WATER LINE
- 2 TREES
- 13 SPRINKLERS
- 20 SHRUBS
- 4 PLANTS
- 16 bubblers
- BARK

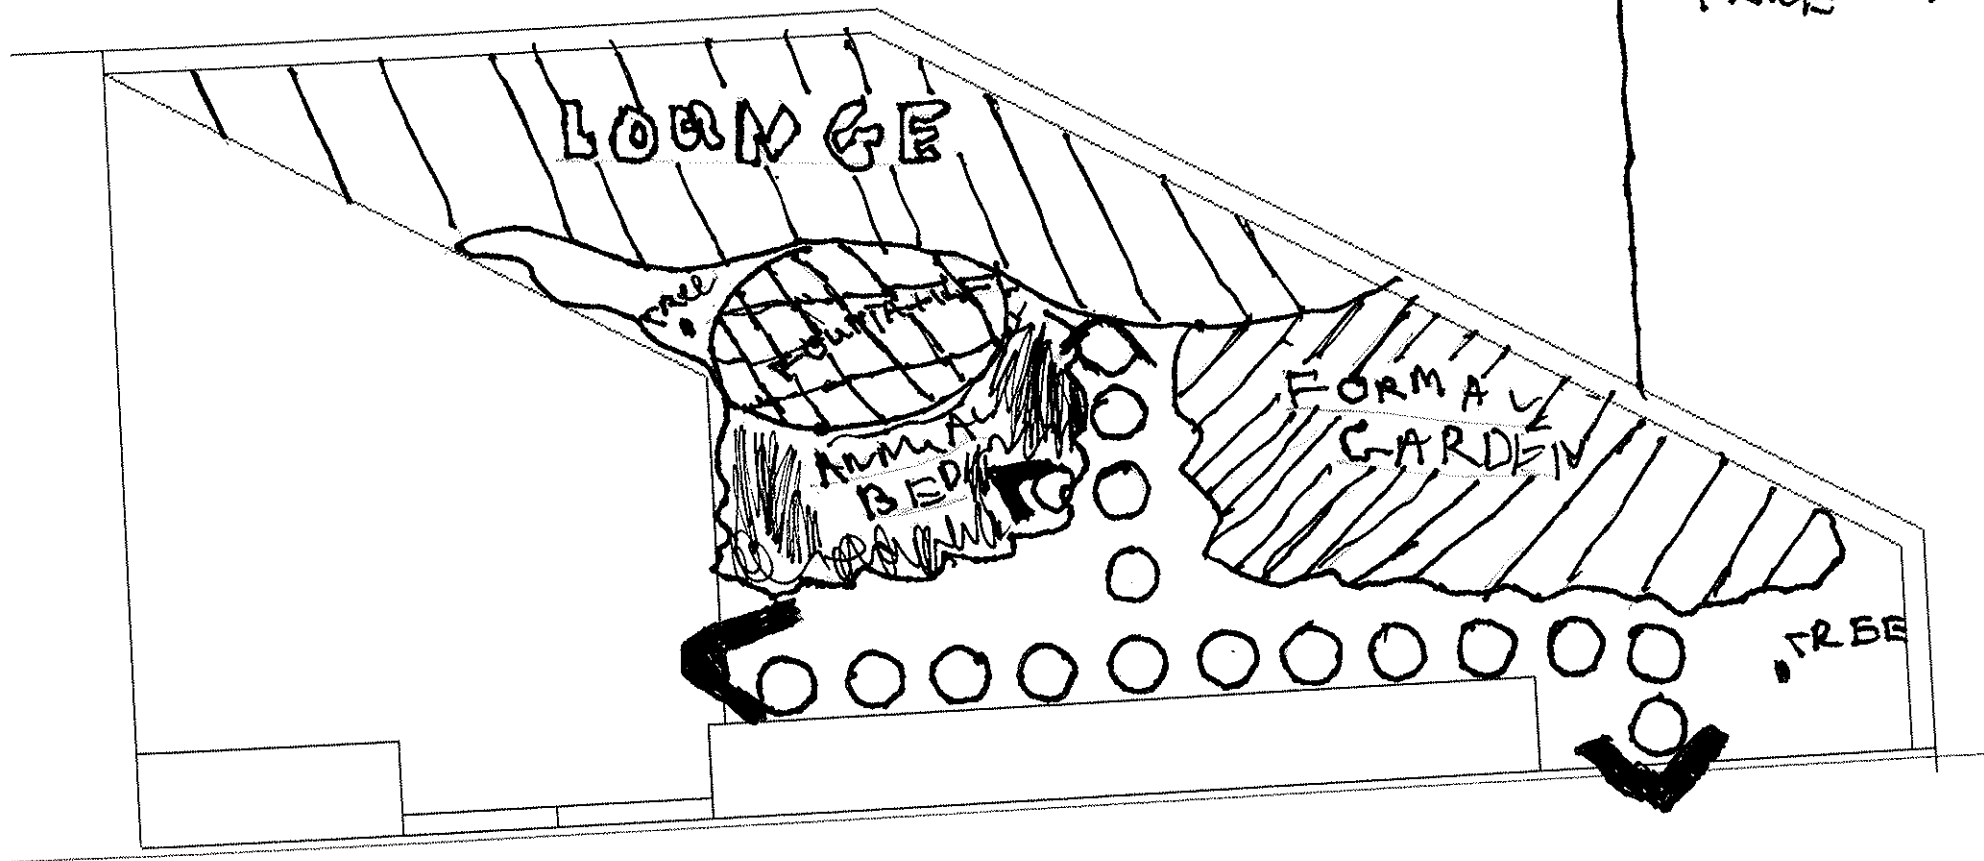

- KEEP ALL THE TREES.
- get rid of Plants and shrubs
- Get rid of all ground cover.
- put in walkway
- be careful while removing sprinklers.
- Keep the four bubblers on Trees.

PROS	CONS
1 WALK through the site.	1 Can crowd easily.
2 Likes a professional look	2 People could ruin it.
3 Keeps a local look	3 running out of space.
4 Provides shade	4 people could climb trees
5 Keep kids out of trouble	5 Kids could destroy it.
6 Kids can eat lunch	6 Kids could trash it.
7 Kids won't trash it.	7 more work for maintenance and kids could knock it over.
